Peoples Demands before I.N.D.I.A and its constituent parties.

We, the civil society activists, organizations, and networks of such from more than 25 states are striving to work together to stop the fascist forces from coming to power again in the 2024 elections. Not only us, innumerable organizations, activists, thinkers, writers, journalists, and artists of this country are making their efforts through different means. We all want this government to go. Unconditionally we work for this without any selfish motives. The advantage of our work, directly and indirectly, is to be best derived by the opposition alliance. But here we want a clear statement and commitment from the I.N.D.I.A and its constituent parties about how they are going to rebuild the nation and reassure the dignified life of the common people.

Here are our minimum key Demands / Suggestions before you to move in a positive direction to ensure the same.

- *Rollback the 10 Years of misrule*
- *Re track the Nation.*
- *Reassure the people.*
